

SWEET JEWELS

A Cluster of Tissue Culture Saskatoon Berries

AgriForest is pleased to offer an array of tissue culture Saskatoon Berries, selected in collaboration with Agriculture and Agri-Food Canada. Our tissue culture Saskatoons are true to the variety, exhibit a denser branching habit and floral production resulting in a larger berry crop, and are characterised by even ripening for easier harvesting.

SWEET JEWELS

A Cluster of Tissue Culture Saskatoon Berries

***Amelanchier alnifolia* BLUFF**

A moderately suckering variety that reaches 10' in height at maturity. Produces 13mm even ripening berries that have a well-balanced, tangy taste. Fruit holds flavour better than other cultivars. Zone 3.

***Amelanchier alnifolia* FORESTBURG**

A heavy producer of large fruits. Produces 16mm, sweet, juicy berries that ripen later than Smoky. Reaches 8' at maturity. Zone 3.

***Amelanchier alnifolia* HONEYWOOD®**

A low suckering, early bearing variety. Reaches 8-10' in height at maturity and produces a full-flavoured, tart 15mm fruit. Zone 3.

***Amelanchier alnifolia* LEE #3®**

An upright, slow spreading, 10' bush. Produces few-seeded, intense flavoured, 14mm berries. Zone 3.

***Amelanchier alnifolia* LEE #8®**

A vigorous, productive variety that reaches 6-8' at maturity. Produces large, firm 16mm fruit with exceptional taste. Zone 3.

***Amelanchier alnifolia* MARTIN**

An early blooming variety that reaches 10'. A large-fruited selection, with excellent flavour and uniform ripening. Zone 3.

***Amelanchier alnifolia* NELSON**

A moderate suckering, late blooming variety. Has a compact size, reaching 5' in height. 13mm berries have few seeds and good tangy flavour. Zone 3.

***Amelanchier alnifolia* NORTHLINE**

A free suckering, early bearing variety that reaches 6-8' at maturity. Heavy producer of large, 16mm berries that have an excellent sweet taste. Zone 3.

***Amelanchier alnifolia* PARKHILL**

A moderate to sparse suckering variety that reaches 12' at maturity. 14mm fruit has an excellent, full, tangy flavour, that is fairly sweet. Zone 3.

***Amelanchier alnifolia* PEMBINA**

A vigorous, upright, 10' variety. A low suckering plant that produces 14mm, sweet, flavourful fruit. Zone 3.

***Amelanchier alnifolia* SMOKY**

The most popular Saskatoon variety and the full-flavour standard against which other cultivars are judged. A prolific producer of large 14mm sweet berries that have the highest sugar/acid ratio. Reaches 8' at maturity. Zone 3.

***Amelanchier alnifolia* SUCCESS**

A 6-8' shrub that is moderately suckering. Produces 14 mm, slow ripening fruit with mild, somewhat apple-like flavour. Zone 3.

***Amelanchier alnifolia* THIESSEN**

A vigorous, moderately suckering variety. A large, 15' shrub that produces the largest berries of all varieties. 17mm berries are pleasant and full-flavoured. Zone 3.
