FRAGRANT MIST An Array of Tissue Culture Lilacs

AgriForest is pleased to offer an excellent selection of tissue culture Lilacs. Our tissue culture Lilacs are bushier, have more panicles, and are disease free compared to conventionally grown ones. Experience the AgriForest difference!

***Syringa hyacinthiflora* MAIDEN'S BLUSH**

Hardy, upright shrub with abundant fragrant, single vivid pink flowers. Reaches 10' at maturity. Zone 2.

***Syringa hyacinthiflora* POCAHONTAS**

Dense, upright, extremely hardy shrub that produces abundant fragrant, deep violet blooms. Reaches 10'. Zone 2.

***Syringa vulgaris* BEAUTY OF MOSCOW**

A stunning variety with a multitude of pale pink to white flowers. Mature height of 8-10'. Zone 3.

***Syringa vulgaris* CHARLES JOLY**

Fragrant, double red-purple flowers are produced on this shrub that reaches 10' at maturity. The blue-green foliage in summer turns yellow in fall. Zone 3.

***Syringa vulgaris* EDWARD J. GARDNER**

Double pink, beautiful, large twisted florets with an excellent, sweet fragrance. Dense, upright shrub reaching 10' at maturity. Zone 3.

***Syringa vulgaris* KATHERINE HAVEMEYER**

Impressive, double bluish-lavender fragrant flowers are produced on this 10', vigorous, upright shrub. Zone 3.

***Syringa vulgaris* MME. LEMOINE**

Bluish-green foliage turns yellow in fall on this 10' shrub. Produces gorgeous fragrant, double white blooms. Zone 3.

***Syringa vulgaris* MONGE**

Dense, upright shrub with showy, single reddish-purple fragrant flowers. Reaches 10' at maturity. Zone 3.

***Syringa vulgaris* MONTAIGNE**

Double light pink-mauve flowers with white in the florets. A beautiful sugary fragrance. Reaches 10'. Zone 3.

***Syringa vulgaris* MISS ELLEN WILLMOTT**

Very large double flowers of pure white make this fine older cultivar a favourite. Reaches 5'. Zone 3.

***Syringa vulgaris* PRAIRIE PETITE**

Quality Plants through Tissue Culture Technology

Beautiful single pink fragrant flowers produced on dense, compact shrub. 4' at maturity. Zone 3.

***Syringa vulgaris* PRESIDENT GREVY**

Vibrant, double blue fragrant flowers bloom on dense, upright shrub. 10' at maturity. Zone 3.

***Syringa vulgaris* SENSATION**

An eye-catching variety with unique fragrant single purple flowers that have a white border. Reaches 10' at maturity. Zone 3.

***Syringa vulgaris* VESPER**

Single lavender-pink fragrant flowers produced on dense shrub that reaches 10'.
Zone 3.

***Syringa vulgaris* WEDGEWOOD BLUE**

Old fashioned variety with pink buds that turn into fragrant single blue flowers. Reaches 6' at maturity. Zone 3.
